DEPARTMENT OF BOTANY

Department meeting with Principal has been convened on June 02/06/2020 at 11.am to organize online webinar on the occasion of World Environment Day.

Agenda of the meeting:

- To organize online webinar
- To discuss about the webinar topic
- To invite eminent Resource persons

Proceedings of the Meeting:

The Meeting was started with the welcome address by the HOD followed by the introduction about the agenda of the meeting.

Action taken report:

In the meeting it is decided to organize online webinar on the occasion of World Environment Day and also decided the topic and eminent Key note speaker and Resource persons for the webinar.

TOPIC: "SAVE NATURE FOR BRIGHT FUTURE"

- KEY NOTE SPEAKER: DR.G M VIDYASAGAR
- RESOURCE PERSONS: DR.DEVARAJA REDDY
DR.SIDANAND V KAMBHAR

Members present

- 1) Dr.Shaila Hiremath
- 2) Dr.Latadevi karikal
- 3) Mr.Neelakanth C

BRIEF INTRODUCTION OF THE RESOURCE PERSON

Dr.DEVARAJA REDDY NJ, M.Sc (Geo.)

Hydro-Geologist, Rain water harvesting specialist,
"Jaladhama"

Geo Rain Water Board @

Near Ayyappa swamy Temple

Medehalli Road, Chitradurga – 577 501

Karnataka, India

E-mail: devraj05@gmail.com

Res: (08194) 225458 Cell: 9448125498

Name	:	Dr.DEVARAJA REDDY N.J.
Qualification	:	M. Sc (Geology), 6 th Rank
University	:	University of Mysore, Mysore ,Karnataka ,India
Profession	:	Hydro geologist, Rain Water Harvesting Ground water Recharge Specialist
Phone No.	:	Res : (08194) 225458 , Cell : 9448125498
E-Mail ID	:	devraj05@gmail.com
Organization	:	Geo Rain Water Board(R), an NGO Chitradurga
Experience	:	<p>Having a wide experience in the field of Hydrogeology (water), Rain Water Harvesting and Ground Water Rejuvenation since from 1987.</p> <p>Took innovative steps during the implementation of many water related projects. And took very challenging, bold steps, struggled a lot to develop Rural and urban Community particularly in southern India.</p>
Services	:	<p>Working as one of the Leading Consultant in India for Government & Non Government Organizations, Private Sectors like, Educational Institutions - Agricultural University, Agriculture Farms, Engineering College's, Rural Schools & Colleges, Water Shed Department, Danida (Jalanidhi), Rotary Clubs ,NSS, and Industries Etc.,</p> <p>From our enormous services to this mankind, most of Rural communities in our Society are benefited and living comfortably.</p>

PROVIDING SERVICES:

Rain Water Harvesting

Bore well recharge.

Construction of Reservoirs, Lakes, Check Dams & Farm Ponds.

Geo membrane tanks

Percolation Tank.

Waste Water Treatment.

PRINCIPAL
SHARNBASVESHWAR COLLEGE
OF SCIENCE, GULBARGA

Water quality testing
Green belt development.
Hydrological and Hydro geological investigations
Environmental studies using modern techniques
Hydro Geo Morphological Studies.
Water Level Fluctuations
Pumping And Recovery Tests
Geological Mapping using Application of
Remote Sensing and GIS Techniques.

Aquifer Characteristics

Seepage Studies and its influence on ground water movement.

Identification of ground water potential zones

Water supply and sanitation projects.

Awareness Programs Research & Adequacy Training Programs

ENVIRONMENTAL IMPACT

We have installed more than 80,000 Bore wells with recharging system and 5500 Roof Top Rain Water Harvesting System. 5,000 form ponds, Hundreds of reservoirs, 4000 percolation pits 5,000,00 different species of Plants planted throughout India .

During past 33 years of our activities, Quantity, Quality and yield has much improved wherever we have applied Rain Water Harvesting system.

We took almost 33 years to come through in this method of recharging successfully by continues research.

We have well Trained Team with Technical Expertise to handle the installation of recharging properly.

*****Thank You *****

CURRICULUM VITAE

DR. KAMBHAR SIDANAND VITTHAL

E-mail: sidanand.kambhar@gmail.com

Mobile: 8746009547

Postal Address:

Dr. Kambhar Sidanand Vitthal

M.Sc., Ph.D. K-SET

C/o Shri. Ittappa Pujari

Shri Laxmi Nivas

Vitthal Pujari Building

Vidyanagar, Chikodi

Designation: Lecturer

P.G. Department of Botany,

Basavaprabhu Kore Arts, Science and

Commerce College,

Chikodi, Belagavi- 591 201, Karnataka

Personal Data:

Father Name: Vitthal

Mother Name: Saraswati

Date Of Birth: 10 May, 1984

Sex: Male

Nationality: Indian

Marital Status: Married

Languages Known:

Kannada, Marathi, Hindi & English

Hobbies:

Playing chess.

Reading books.

OBJECTIVE

➤ To work in an organization where I can utilize my knowledge of Botany, and gain understanding; at the same time to make my best contribution to the organization.

➤ I have keen interest in finding the secrets of nature and applying them into the service of mankind.

EDUCATION

➤ B.Sc. (Botany), Shivaji University, Kolhapur, Maharashtra

➤ M.Sc. in Botany, Gulbarga University, Gulbarga, Karnataka

➤ Ph.D. in Botany, Karnatak University, Dharwad, Karnataka

➤ **K-SET**

COMPETENCIES

➤ Good analytical skills.

➤ Solving puzzles

➤ Hard worker

PRINCIPAL
SHARNBASVESHVAR COLLEGE
OF SCIENCE, GULBARGA

- Ready to adopt the change

COMPUTER SKILLS

- Basic, Photoshop CS8

AREA OF RESEARCH

Angiosperm Taxonomy, Medicinal and Aromatic plants,
Ethnobotany, Botanical Illustration

2

EDUCATIONAL DETAILS

COURSE COLLEGE/UNIVERSITY YEAR OF PASSING PERCENTAGE

Ph.D.

Botany

Department of Botany, Karnatak University's,
Karnatak Science College, Dharwad

Title- "*Phytodiversity Status and Its Utility in Gadag
District*"

09-10-2007

(Date of
Joining)

30-08-2013

Awarded

With course

work A+ grade

M.Sc.

Botany

Department of P.G. Studies and Research in Botany
Gulbarga University, Gulbarga

2007 66.87%

4th Rank

B.Sc.

Botany

Smt. Kasturbai Walchand College, Sangli
Maharashtra

2005 62.28%

HSC Sri Tatyasaheb Ghatage Charitable Trust's Vocational
Education College, Sangli, Maharashtra

2002 73.33%

SSC New High School, Yashwantnagar, Sangli, Maharashtra 1999 51.73%

Research Experience

❖ Project Fellow under UGC funded Major Research Project entitled "*Phytodiversity Status and Its Utility in Gadag District.*", under the guidance of Dr. K. Kotresha, at Department of Botany, Karnatak Science College, Dharwad, Karnataka (20 Jul 2007 to 31 Mar 2010)

❖ Botanical Assistant under **Karnataka Biodiversity Board (KBB) and Karnataka Forest Department (KFD)** funded project entitled "*Establishment of a network of in-situ Dry zone conservation sites in Karnataka*" under the guidance of Dr. K.

PRINCIPAL
SHARNBASVESHWAR COLLEGE
OF SCIENCE, GULBARGA

Kotresha, at Department of Botany, Karnatak Science College, Dharwad, Karnataka in collaboration with Foundation for Revitalisation of Local Health Traditions (FRLHT), Bengaluru (7 Oct 2010 to 7 Dec 2010)

❖ Senior Research Fellow under NPCIL funded project entitled “*Studies of Terrestrial flora of Jaitapur region for Biodiversity and Conservation plan*” at College of Forestry, Dapoli, Ratnagiri (1 Oct 2012 to 31 Aug 2013)

❖ Eight years of Research experience

Teaching experience

❖ Served as Full time guest faculty at Department of Post Graduate Studies and Research in Botany, **Karnataka State Women’s University, Vijayapur**, Karnataka from 2 Sep 2013 to 30 Jun 2014.

3

❖ Served as Full time guest faculty at Department of Post Graduate Studies and Research in Botany, **Karnataka State Women’s University, Vijayapur**, Karnataka from 18 Aug 2014 to 5 June 2015.

❖ Served as Full time guest faculty at Department of Post Graduate Studies and Research in Botany, **Karnataka State Women’s University, Vijayapur**, Karnataka from 24 Aug 2015 to 30 June 2016.

❖ Served as Full time guest faculty at Department of Post Graduate Studies and Research in Botany, **Akkamahadevi Women’s University, Vijayapur** (Formerly Karnataka State Women’s University, Vijayapur) Karnataka from 25th Aug 2016 to 30 May 2017.

❖ Served as Part time Biology teacher at **RKM Educational Academy**, SY PU Science College, Vijayapur from November 2016 to January 2017.

❖ Serving as Full time guest faculty at Department of Post Graduate Studies and Research in Botany, **Akkamahadevi Women’s University, Vijayapur** (Formerly Karnataka State Women’s University, Vijayapur) Karnataka from 8th Aug 2017 to 19th May 2018.

❖ Working as Full time Lecturer at Post Graduate Department of Botany, Basavaprabhu Kore Arts, Science and Commerce College, Chikodi, Belagavi- 591 201, Karnataka since July 2018 affiliated to Rani Channamma University, Belagavi.

ACHIEVEMENTS

❖ **GOLD MEDAL** for passing M.Sc. Botany examination in May 2007 securing in the paper “**Plant pathology & Plant Protection**” highest number of marks.

❖ **K-SET** (Karnataka State Level Eligibility Test) eligible in 2015 with 57.14%

LIFE MEMBERSHIP

❖ Member of the **Indian Association for Angiosperm Taxonomy (IAAT)**

EDITORIAL MEMBER

❖ Editorial member for the Journal *Life sciences leaflets* for the year 2015

4

ACADEMIC EXPERIENCE

❖ Member of Annual Report Committee 2016-17, Akkamahadevi Women’s University, Vijayapura

❖ Appointed as **Member of Board of Examiners** for the year 2018-19 and 2019-20, for Department of P.G. Studies in Botany, Sharnbasva University, Kalaburagi.

SEMINARS / CONFERENCES Attended:

➤ Participated in **National Conference on Medicinal and Aromatic Plants**- 10th to

12th Dec. 2007, held at Dept of P.G. Studies and Research in Botany, Gulbarga University, Gulbarga, Karnataka.

- Participated in one day KBB sponsored seminar/awareness training programme on **“Biodiversity related issues & People’s Biodiversity Register”**- 25th May 2008, conducted at P.G. Dept. of Applied Genetics, Karnatak University, Dharwad.
- Presented paper in the **“XVIII Annual Conference of Indian Association for Angiosperm Taxonomy** and International Seminar on “Multidisciplinary Approaches in Angiosperm Systematics” on the topic **“Floristic work of Prof. A. R. Braganza in Karnataka And Maharashtra states”**- 11th -13th Oct. 2008, held at Dept. of Botany, Kalyani University, Kalyani, West Bengal.
- Presented paper in the **“XVIII Annual Conference of Indian Association for Angiosperm Taxonomy** and International Seminar on “Multidisciplinary Approaches in Angiosperm Systematics” on the topic **“*Curcuma karnatakensis* Amalraj et al..... A new record from Dharwad, Karnataka”**- 11th -13th Oct. 2008, held at Dept. of Botany, Kalyani University, Kalyani, West Bengal.
- Participated in one day UGC sponsored State Level Conference on **“Conservation of Biodiversity”**- 30th Oct. 2009, held at B. K. College, Chikodi, Belagavi.
- Presented paper in the **“XIX Annual Conference of Indian Association for Angiosperm Taxonomy and International Symposium on “Angiosperm Systematics & Phylogeny: Retrospect’s & Prospects”** on the topic **“Study on Traditional Orthopedic.....Karnataka.”**- 12th -14th Nov. 2009, held at NBRI, Lucknow.
- Presented paper in the **“XIX Annual Conference of Indian Association for Angiosperm Taxonomy and International Symposium on “Angiosperm Systematics & Phylogeny: Retrospect’s & Prospects”** on the topic **“New Observations recorded in.....Karnataka”**- 12th -14th Nov. 2009, held at NBRI, Lucknow.
- 5
- Participated in **National Symposium on Role of Biology and Biotechnology in Conservation of Biodiversity and Sustainable Development**- 22nd to 24th Dec. 2009, held at Dept of P.G. Studies and Research in Botany, Gulbarga University, Gulbarga, Karnataka.
- Participated in XXXII All India Botanical Conference and International Symposium on **“Diversity of plants and Microbes Present Scenario”** 28th -30th Dec. 2009, held at Kuvempu University, Shankaraghatta.
- Participated in **National Conference on Bioscience and community**- 20th to 21st Mar. 2010 at P. C. Jabin Science College, Hubli.
- Presented paper in the in **“XXXIII Conference of Indian Botanical Society and International Symposium on the New Horizons of Botany”** on the topic **“Recollection of *Indigofera hochstetteri* Baker from Karnataka, after nine decades”**- 10th to 12th Nov. 2010, held at Dept of Botany, Shivaji University, Kolhapur.
- Presented paper in the XX Annual Conference of Indian Association for Angiosperm Taxonomy and International Symposium on “Taxonomy, Plant Diversity and Conservation” on the topic **“A Study on Alien Flora of Gadag district, Karnataka”**- 26th -28th Dec. 2010, held at Dept of Botany, Bharathiar University, Coimbatore.
- Presented paper in the National Conference on Biodiversity and Biotechnology for Sustainable Development on the topic **“Studies on Phyto-diversity, alien species**

and their status in Dharwad District, Karnataka”- 21st-22nd Mar. 2011, held at Dept of P.G. Studies in Botany, Karnatak University, Dharwad, Karnataka.

➤ Presented paper in the XXI annual conference of Indian Association for Angiosperm Taxonomy and “National seminar on Biodiversity conservation and climate change on the topic **“Floristic and ecological studies in Sandur hills, Bellary district, Karnataka”** - 2-4 Dec. 2011, held at Environment and Sustainability Department Institute of Minerals and Materials Technology, CSIR, Bhubaneswar, Odisha, India.

➤ Participated in one day awareness training programme on **“Capacity Building in Taxonomy Towards Conservation”** sponsored by Karnataka Biodiversity Board, Bangalore held at Karnataka State Women’s University, Vijayapura on 21st Feb. 2015.

➤ Presented paper in National Seminar on “Nanotechnology: Environment, Economic, Social and Health Perspectives” on the topic **„ Weed diversity in north east part of**

6

Belgavi District, Karnataka (India)” held at Annasaheb Waghire College, Otur on 22nd and 23rd January 2016.

➤ Presented paper in One Day National Conference on “Recent Trends in Plant Science” on the topics “A record on distribution of *Vigna indica* dixit et al. (Fabaceae) in Karnataka, India” and “Medicinal plants of Panchlingeshwar sacred grove/temple complexes Nandikurali, Raibag, Belagavi, Karnataka” held on 24th March 2019 at G.I. Bagewadi Arts, Science and Commerce College, Nipani- 591237, Belagavi.

WORKSHOPS/TRAINING ATTENDED

➤ Participated in three days workshop in Acharya initiative – a workshop for lecturers in creative science pedagogy organized by Agastya International Foundation in association with Karnataka State Higher Education Council (KSHEC) at Agastya Creativity Lab in Kuppam Andhra Pradesh from 1st to 3rd March 2018.

➤ Participated in one day TLC workshop on Taxonomy of Angiosperms organized at Department of Botany, Savitribai Phule Pune University, Pune on 30th January 2018.

➤ Participated in two day lecture workshop on **“Plant Taxonomy”**- 27th and 28th Jan. 2017, organized at Department of Biotechnology, Bapuji Institute of Engineering and Technology, Davanagere.

➤ Participated in one day workshop on **“Techniques in Mycorrhizal Studies”**- 10th Mar. 2012, organized at J.S.S and S.K. Gubbi Science College, Vidyagiri, Dharwad.

➤ Participated in the **“Workshop on the use of SPSS Packages for Research Scholars in Science”**- 08th to 10th Jun. 2009, organized at Academic Staff College, Karnatak University, Dharwad.

➤ Participated in the **“Capacity Building Training in Plant Taxonomy”**- 19th to 31st Jan. 2009, organized at Botanical Survey of India, Southern Circle, Coimbatore.

INVITED TALK/SPECIAL LECTURE

➤ Delivered a lecture on **“Plant Taxonomy”** on 17-01-2020 at Department of Botany, Sharnbasaveshwar Science College, Kalaburagi.

➤ Delivered an invited lecture on the occasion of One Day workshop on “Horticulture: An Agribusiness” on 20-12-2019 at Department of Botany, Shri. Yashwantrao Patil Science College, Solankur, Radhanagari.

7

➤ Delivered a lecture on **“Plant Nomenclature”** on 22-12-2018 at Post Graduate

Department of Botany, Sharnbasav University, Kalaburagi

- Participated as a **Resource Person** to train the field botanists under the medicinal plant survey project work held at Yellapur forest area from 19.12.2017 to 23.12.2017 conducted by Karnataka Biodiversity Board.
- Delivered a lecture on “**Species Diversity**” on the event of Special Lecture Series-I organized under Internal Quality Assurance Cell (IQAC) on 17-02-2017 at Department of Botany, Government First Grade Degree College, Vijayapur.
- Delivered a special lecture on “**Methods of Collection and Plant Identification of Wild Plants**” on the event of World Wild Life Week celebration organized by Department of Studies and Research in Botany for Degree students on 05-10-2016 at Government Degree (Autonomous) College, Kalaburagi, Karnataka.
- Participated as a **Resource Person** in the UGC sponsored two day workshop on “**Hands on Training in Plant Taxonomy**” organized by Department of Botany, Basavaprabhu Kore Arts, Science and Commerce College, Chikodi, Dist. Belagavi on 6th and 7th Mar. 2015.

SCIENTIFIC CONTRIBUTION

❖ Scientific report on:

“*Phytodiversity studies in Ecologically sensitive area of Kappath hills, Gadag district, Karnataka*” Submitted to Chairman Western Ghat Task Force Government of Karnataka, 307, Vidanasoudha, Bangalore – 01, 2010.

Editor; K. Kotresha; Contributors: Mr. Nagabhushan S. Harihar and **Mr. Sidanand V. Kambhar**

The theme for World Environment Day 2020 is biodiversity – a concern that is both urgent and existential as per the United Nations official website. Recent events, from bushfires in Brazil, the United States, and Australia to locust infestations across East Africa – and now, a global disease pandemic – demonstrate the interdependence of humans and the webs of life, in which they exist.

The theme focuses on '**time for nature**' and providing the essential infrastructure that supports life on Earth and human development.... Due to the change in our lifestyle, the condition of the environment has fast deteriorated

PRINCIPAL
SHARNBASAVESHWAR COLLEGE
OF SCIENCE, GULBARGA

Every World Environment Day is hosted by a different country, in which official celebrations take place. This year's host is Colombia in partnership with Germany. This year, millions of people will be celebrating digitally due to the outbreak of the COVID-19 pandemic.

Time for Nature

In 2020, Colombia takes the baton. Colombia is one of the world's megadiverse countries, hosting close to 10 percent of the planet's biodiversity. It contains 314 different ecosystems and more than 56,000 identified species. Colombia is the world's most biodiverse nation per kilometer. Naturally, then, this year's focus is on biodiversity with the theme "Time for Nature."

- Human activities have significantly disturbed three-quarters of the world's land surface – land use is also a leading factor in climate change.
- Two-thirds of ocean areas are also impacted by human activity, through overfishing, industrial pollution and oil spills, and garbage accumulation. Wildlife species are disappearing tens to hundreds of times faster now than in the past 10 million years. By 2030, the world may have lost one out of every four known species. Scientists have declared this the sixth mass extinction event in world history.
- The most recent and most well-known extinction event was the end of the Cretaceous period. At that time, 66 percent of the world's species – including the dinosaurs – died off. But it was not the most severe. The Permian period ended 251 million years ago when 96 percent of the world's species died, almost ending life on Earth.

The exact causes of previous extinction events are not fully understood, but they all occurred during periods of rapid climate change. At current rates of species extinction, the sixth event is on track to be more severe than the one that wiped out the dinosaurs.

UN Report on Biodiversity:

- The **average abundance of native species** in most major land-based **habitats** has fallen by at least 20%, mostly since 1900. More than 40% of amphibian species, almost 33% of reef-forming corals and more than a third of all marine mammals are threatened. **(Invasive species)**
- The picture is less clear for **insect species**, but available evidence supports a tentative estimate of **10% being threatened**.
- At least 680 vertebrate species had been driven to extinction since the 16th century and more than 9% of all domesticated breeds of mammals used for food and agriculture had become extinct by 2016, with at least 1,000 more breeds still threatened.
- Three-quarters of the **land-based environment** and about 66% of the marine environment have been significantly altered by human actions. On average these trends have been less severe or avoided in areas held or managed by Indigenous Peoples and Local Communities. **(Flood Chikodi, Kerala)**

- More than a third of the world's land surface and nearly 75% of freshwater resources are now devoted **to crop or livestock production**.
 - The value of **agricultural crop production** has increased by about 300% since 1970, **raw timber harvest** has risen by 45% and approximately 60 billion tons of renewable and nonrenewable resources are now extracted globally every year – having nearly doubled since 1980.
 - **Plastic pollution** has increased tenfold since 1980, 300-400 million tons of heavy metals, solvents, toxic sludge and other wastes from industrial facilities are dumped annually into the world's waters, and fertilizers entering coastal ecosystems have produced more than 400 ocean 'dead zones', totalling more than 245,000 km² (591-595) – a combined area greater than that of the United Kingdom.
 - **Negative trends in nature will continue to 2050** and beyond in all of the policy scenarios explored in the Report, except those that include transformative change – due to the projected impacts of increasing land-use change, exploitation of organisms and climate change, although with significant differences between regions.
-
- Since 1970 the **global human population** has more than doubled (from 3.7 to 7.6 billion), rising unevenly across countries and regions; and per capita gross domestic product is four times higher – with ever-more distant consumers shifting the **environmental burden of consumption and production across regions**.

Living planet report:

- It is published every **2 years by WWF**, first published in
 - It is based on the **‘Living Planet Index’** and **‘Ecological footprint calculations’**.
 - The **‘Living Planet Index’** is an indicator of the **state of global biological diversity** managed by **Zoological Society of London (ZSL) and WWF**.
 - **Ecological footprint** is the **biologically productive area needed** to provide for everything used by people: fruits and vegetables, fish, wood, fibres, absorption of CO₂ from fossil fuels use, and space for buildings and roads. It is currently developed by **Global Footprint Network** (an independent think-tank). The **GHG footprint and carbon footprint** are a component of Ecological Footprint.
 - Humanity’s Ecological Footprint for 2014 was 1.7 planet Earth’s. This meant that humanity’s demands were 1.7 times faster than what the Earth’s ecosystems renewed.
 - It is a **science-based analysis** on the **health of Earth** and the **impact of human activity**.
-
- The **2018 report** has found a **decline of 60% in population sizes of vertebrate species** from 1970 to 2014. The **tropics of South and Central America** had an 89% loss compared to 1970.
 - Issues like **Ocean acidification, loss of corals, increasing Carbon** in the atmosphere, **species disappearance** due to habitat loss and degradation, etc are highlighted in the 2018 report.
 - **Increasing use of plastics** that ultimately **reaches the oceans and seas** via rivers is also a cause for deaths of **marine organisms**.
 - The latest report calls for **new goals post-2020** alongside **Convention on Biological Diversity**, the **Paris Climate Agreement** and the **Sustainable Development Goals**.

Prakash Keshav Javadekar
the Minister of Environment, Forest and Climate Change,

On the occasion, he launched the National Biodiversity Authority (NBA) and United Nations Development Programme (UNDP) Biodiversity Samrakshan Internship Programme which proposes to engage 20 students with postgraduate degrees for a period of one year through an open, transparent, online competitive process.

The programme wishes to engage dynamic and creative students, who are willing to learn about natural resource management and biodiversity conservation and to support the projects of NBA in various states and Union Territories and to technically assist the State Biodiversity Boards in discharge of their mandates.

Why should we care about Biodiversity?

Biodiversity is the variation of Earth's terrestrial, freshwater, and marine species, as well as their habitats. Biodiversity is vital to the survival of all life on earth and is also the cornerstone for the goods and services of the environment that allow human societies to thrive. Biodiversity provides us with food, water and resources as well as services such as climate control, pollination, flood mitigation and cycling of nutrients.

Ecosystems are relying on all parts from the smallest bacteria to the largest vertebrate. It's all interconnected. Some are producing oxygen that others are breathing. Some provide food for larger species, which in turn become prey to even larger species. Every living organism has a role to play in the maintenance of balance. You can ultimately lose much more than one species by removing one element. More than 98% of the species in nature are extinct.

The theme for this year's World Environment Day is 'Biodiversity' and 'Time for Nature'. It has laid emphasis on the role in providing essential infrastructure that supports life on earth and human development.

Due to the change in our lifestyle, the condition of the environment has fast deteriorated. While technology has made our life comfortable, the environment has faced negative consequences. On this World Environment Day 2020, we look at some of the ways in which we can contribute to protecting the environment.

Planting more trees: Apart from purifying the air, trees also help us humans in many other ways which include climate control. With the increase in greenhouse gases, trees help in maintaining the air quality by emitting oxygen. Trees also act as habitat for wildlife. Forests are home 80% per cent terrestrial biodiversity of the world.

Avoid using single-use plastic: Plastic has become a part of our life. But it is also a major source of pollution to our environment

- There is **no central and comprehensive definition** for single-use plastic, crucial for any ban to be successful.
- Governments currently use various definitions.
- The problems caused by them were recognized in 2007.
- It has been found everywhere ie **right from depth of the oceans to the peaks of Himalayas.**
- Single used plastics are **used once and thrown away.**
- They accumulate in the water bodies and choke the drains which lead to floods.

Adopt public transport: As we all know more and more cars on the roads add up to pollution, it is in our own interest to adopt the use of public transport and shun private vehicles for commute for as much as possible. People nowadays have more cars than the number of family members in the house. Owning a car has now become a status symbol. We need to shed such a mindset to start contributing to our environment by using public transport.

Rainwater Harvesting: The careless use of precious resources like water has created a huge water crisis in many countries. The need of the hour is to take the issue seriously and avoid 'Day zero'-the day when a city's taps turn dry and people stand in line to collect their daily quota of water. We should start saving the water and make arrangements in our houses for rainwater harvesting.

Thank you

Invitation

To,

Dr. G.M.Vidyasagar

Chairman, Department of PG Studies in Botany,

Gulbarga University, Kalaburagi

Respected Sir

We cordially invite you as a **“Key Note Speaker”** for the online webinar organized by the Department of Botany on the occasion of **“World Environment Day” 2020** which is to be held on **05.06.2020 at 11.30 am.** in our college.

On behalf of management, faculty and student representatives, I invite you to grace the occasion. So, kindly accept our invitation.

Thanking you,

PRINCIPAL

Appreciation letter

To,

Dr. Devaraja Reddy N J

Hydro Geologist, Rain water harvesting,

Ground Water Recharge Specialist,

Chitradurga

We feel proud to place on record our deep sense of gratitude to you as a **“Resource Person”** for one day webinar on **“Save Nature For Bright Future”** held on 5th June 2020, organized by the Department of Botany on the occasion of “World Environment Day” under IQAC initiative.

The inputs given by you were quite practical and useful. Your narrative style of presentation was almost pictorial. Your session has benefited all of us and all the participants immensely. May lord Sharanbasveshwar bless you abundantly and serve the society with a greater zeal.
